The Management Company is authorized in Luxembourg and regulated by Commission de Surveillance du Secteur Financier (CSSF).

Publication Date: 30-04-2026

What is this product?

Type

Shares of a sub-fund of Fidelity Active SStrategy SICAV, an Undertaking for Collective Investment in Transferable Securities (UCITS).

Term

This fund is open-ended. The Management Company is not entitled to terminate the fund unilaterally, however, the board of directors of Fidelity Active SStrategy SICAV may terminate the fund by way of liquidation or merger.

Objectives

Investment objective The fund aims to achieve capital growth over the long-term.

Investment policy The fund invests in a broad range of asset classes including investment grade and below investment grade corporate and government bonds, equities, collateralized and securitized debt instruments, corporate hybrid and contingent convertible bonds, China A and B share, China onshore bonds, and eligible real estate, infrastructure, and commodities, from anywhere in the world, including emerging markets.

The fund aims to achieve its objective and provide an enhanced risk-return profile ('alpha') relative to the broad market by flexibly allocating investments across the above asset classes and geographic areas. The fund mainly invests in other UCITS and UCIs (up to 85%), and on an ancillary basis and depending on market conditions, the fund may invest in such asset classes directly.

The fund may invest directly up to 50% of its assets in money market instruments. Emerging market exposure may be significant and will vary according to prevailing market conditions.

The fund is not expected to actively seek exposure to distressed securities.

Investment approach The fund is not managed with reference to a benchmark. In actively managing the fund, the Investment Manager combines macroeconomic, market and fundamental company analysis to flexibly allocate investments across asset classes and geographic areas based on their potential to generate capital growth and income within the portfolio. The

Investment Manager takes into account sustainability risks in its investment process. For more information, see "Sustainable Investing and ESG Integration".

Derivatives policy The fund may use derivatives for hedging, efficient portfolio management and investment purposes. In addition to core derivatives (see "How the Funds Use Instruments and Techniques"), the fund intends to use TRS. TRS (including CFD) usage Expected 0% maximum 30% Securities lending Expected 15%; maximum 30% Repos/reverse repos Expected 0%; maximum 30%

Benchmark None.

Distribution policy Income earned by the fund is reinvested in additional shares or paid to shareholders on request.

Base Currency USD

Risk Management Method: Commitment.

Further information You may sell (redeem) or switch some or all of your shares to another fund on any Valuation Day. This key information document describes a sub-fund of Fidelity Active SStrategy. A separate pool of assets is invested and maintained for each sub-fund of Fidelity Active SStrategy. The assets and liabilities of the fund are segregated from those of other sub-funds and there is no cross-liability among the sub-funds. For more information, please consult the prospectus and latest reports and accounts which can be obtained free of charge in English and other main languages from the Management Company. These documents and details of the Remuneration Policy are available via www.fidelityinternational.com. The Net Asset Value of the fund is available at the registered office of the Management Company, and at www.fidelityinternational.com.

Depository Brown Brothers Harriman (Luxembourg) S.C.A.

Intended retail investor

This product may appeal to investors with a basic knowledge of and no or limited experience of investing in funds, who plan to hold their investment for a recommended holding period of at least 3 years, who seek capital growth over the recommended holding period and income; and who understand the risk of losing some or all the capital invested.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class. This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity to pay you.

Be aware of currency risk. You will receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks: emerging markets, liquidity.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If the Management Company is not able to pay you what is owed, you could lose your entire investment.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable scenario: This type of scenario occurred for an investment between (10/2019 - 10/2022).

Moderate scenario: This type of scenario occurred for an investment between (02/2017 - 02/2020).

Favourable scenario: This type of scenario occurred for an investment between (02/2023 - 02/2026).

Recommended holding period Example Investment		3 years USD 10 000	
Scenarios		If you exit after 1 Year	If you exit after 3 years (recommended holding period)
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	6 190 USD -38.1 %	6 870 USD -11.8 %
Unfavourable	What you might get back after costs Average return each year	8 050 USD -19.5 %	9 580 USD -1.4 %
Moderate	What you might get back after costs Average return each year	10 790 USD 7.9 %	11 550 USD 4.9 %
Favourable	What you might get back after costs Average return each year	12 590 USD 25.9 %	15 020 USD 14.5 %

What happens if the Management Company is unable to pay out?

The assets and liabilities of this product are segregated from those of the Management Company. There is no cross-liability between these entities, and the product would not be liable if the Management Company or any delegated service provider were to fail or default. This product does not participate in an investor compensation scheme.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario,
- USD 10 000 is invested.

Example Investment 10 000 USD		
Scenarios	If you exit after 1 Year	If you exit after 3 years (recommended holding period)
Total Costs	126 USD	413 USD
Annual Cost impact (*)	1.3%	1.3% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.3 % before costs and 4.9 % after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0.0% of the amount you pay in when entering this investment.	0 USD
Exit costs	We do not charge an exit fee for this product.	0 USD
Ongoing costs taken each year		
Management fees and other administrative or operating costs	1.0% of the value of your investment per year. This is an estimate based on actual costs over the last year.	97 USD
Transaction costs	0.3% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	29 USD
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	N/A

How long should I hold it and can I take money out early?

Recommended holding period: 3 Years

The recommended holding period is based on our assessment of the risk and reward characteristics and costs of the product. Order Processing: Requests to buy, exchange or sell fund shares that are received and accepted by the Management Company by 1:00 PM CET (12:00 PM UK time) on any Valuation Day are ordinarily processed at the NAV for that Valuation Day. Settlement normally occurs within 3 business days.

How can I complain?

If you wish to make a complaint about this product or the conduct of the Management Company please visit www.fidelityinternational.com. Alternatively, write to The Management Company at 2a, Rue Albert Borschette, BP 2174, L1246 Luxembourg or email fidelity.ce.crm@fil.com. If you have a complaint about the person who advised you about this product, or who sold it to you please contact them for their complaints process.
